

Protecting the Vulnerable™

POSITION SPECIFICATIONS

Mechanic/Operator – BI/Spore Lab
17-FEB-2021

ABOUT OUR COMPANY

Mesa Laboratories, Inc. (Mesa) is a global technology innovator committed to solving some of the most critical quality control and analytical challenges in the pharmaceutical, healthcare, industrial safety, environmental, food and beverage industries. Mesa offers products and services through four divisions (Sterilization and Disinfection Control, Instruments, Cold Chain Monitoring and Cold Chain Packaging), which help our customers ensure product integrity, increase patient and worker safety, and improve quality of life.

Today, each of Mesa's products and services play a role in ensuring the safety and efficacy of the products we use every day. No matter if it's the environment, products or people, Mesa is committed to Protecting the Vulnerable™.

Founded in 1982, Mesa went public in 1984. After 10 years of more than 15% growth per year, the company now has revenue approaching \$100M and a market cap of approximately \$750M. Our growth is attributed to the 350+ dedicated employees who follow our customer-focused, lean-based value system, called *The Mesa Way!*. The Mesa Way! is based on four pillars that drive our work every day:

Measure what Matters: We take the customer's perspective, our "True North", both to measure what matters most to customers and to set absolute standards for performance. We manage to leading indicators, which drive us to proactively avoid problems.

Empower Teams: We move decision making as close to the customer as possible and provide the structure and real time communication forum to align the whole organization behind surpassing customer expectations.

Steadily Improve: We leverage a common and proven set of lean-based tools to prioritize our biggest opportunities, address those opportunities at root cause, and quickly implement change.

Always Learn: We ensure that improvements are sustained, enabling us to raise performance expectations and repeat the cycle of improvement. Equally, this cycle strengthens the Mesa team by providing endless learning opportunities for our employees and helps us to become an employer of choice in our communities.

Mesa Labs is located in the Denver area. [Learn on what Denver has to offer here.](#)

Position: **MECHANIC/OPERATOR – BI/SPORE LAB**

Position Expiration: Posting is open until the position is filled.
Screening of resumes begins **IMMEDIATELY**

Location of Position: Bozeman, MT

Reporting Relationship: This position reports to the Manager – Manufacturing (BI/Spore Lab)

Job Classification: Hourly

Supervisory Responsibilities: None

Scope of Position: This position is responsible for the operation, maintenance and preventative maintenance of the Cozzoli liquid filling machines.

- Essential Duties** Core duties and responsibilities include, but are not limited to, the following:
- Model personal Lean Philosophy 5S behaviors in creating a continuously improving, clean, well-organized and self-maintaining work environment. Work closely with team members and others to motivate and improve 5S knowledge and implementation.
 - Follow a continuous improvement approach for team accountability for achieving high performance SQDCM (Safety, Quality, Delivery, Cost, & Morale) targets through a visual work environment.
 - Comply with company ethics, code of conduct, policies, and best practices, with a commitment to safety in the workplace, valuing of diversity, and promotion of a harassment-free environment.
 - Operation of the Cozzoli filling machines for manufacture of media ampoules used in EZTest, SterilAmp, DriAmp and MagnaAmp biological indicator products including operation of the media tube filling machines.
 - Monitor output of machine operations against product specifications.
 - Maintain equipment and coordinate closely with the Maintenance Department to ensure continuous operation of equipment.
 - Responsible for making minor machine adjustments and small repairs to improve equipment performance.
 - Application of the Mesa Labs Quality Policy and actively monitor quality of outcomes in the performance of all assigned tasks.
 - Perform other duties as assigned by management.

Professional Qualifications: To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The categories listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Education and/or Experience:

- High school diploma or equivalent
- One or more years' experience in a manufacturing laboratory environment preferred
- Experience with manufacturing equipment/machinery preferred
- Any equivalent combination of education and experience

**Professional
Qualifications
(continued):**

Skills, Knowledge and Abilities:

- Basic knowledge and skill with Microsoft Office programs
- Effective communication skills
- Ability to work in a team environment as well as independently
- Ability to focus on continuous improvement
- Ability to take initiative and leadership on projects and tasks

Physical Demands: While performing the duties of this job, the employee is regularly required to stand or sit for extended periods of time. If reasonable, requests regarding ergonomic concerns will be considered. For individuals with disabilities, accommodations may be made to perform the essential functions. Occasional lifting is required.

Work Environment: The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

This is a high volume, high energy manufacturing facility that works to meet manufacturing deadlines. An enthusiastic, positive attitude is highly encouraged and conducive to a productive successful atmosphere. Common sense judgments and problem solving is desirable. Must have the ability to handle repetitious and tedious job functions.

A typical biological laboratory environment comprises the bulk of the work environment for this position. The noise level in the work environment is moderately quiet.

Compensation: Salary, general bonuses, and benefits will be offered commensurate with the successful candidate's experience and qualifications. Benefits include medical, dental, vision, life, accidental death and dismemberment, short term and long term disability, Paid Time Off, paid holidays, 401k retirement with company match.
